Thanks for forwarding the related message on this. We provided contact information for ourselves (Bill A. and me) and for west Virginia folks the other day.--Vicky

Hello, Vivian. Ed Ambrogio suggested I get back to you on your request for contacts/speakers on the Charleston, WV water contamination event. The director of the West Virginia drinking water program is Walt Ivey, of the Bureau for Public Health in the Department of Health and Human Resources. Walt's email address is Walter.M.Ivey@wv.gov. the water quality program director is Scott Mandirola, in the Department of Environmental Protection (Scott.G.Mandirola@wv.gov). the President of west Virginia American is [Ex. 6 - Personal Privacy](#) ([Ex. 6 - Personal Privacy](#) @amwater.com). I'm not sure that any of them would be available, but they may have suggestions as to others who might be able to help with the agenda. I hope this is helpful.--Vicky

Good Morning Sue,

KY/TN Planning Committee is seeking R3 contacts for the upcoming workshop this summer. Do you have any recommendations for Stefanie regarding the WV Spill, a State or the Water Company contact? Thanks!

Vivian Doyle, MSPH

TN Watershed Coordinator

USEPA, Region 4

61 Forsyth St, SW.

Atlanta, GA 30303

Vivian,

Good afternoon.

Our KY TN WPC 2014 Planning Committee has decided to revisit the topic of the WV Spill for the Wednesday Post Conference Workshop. As your time allows, can you please provide some feedback on an appropriate contact within Region 3 that would be able to address our audience? Also, if there is anyone employed by the State or the Water Company that you can recommend. That would be very helpful. Our goal is to provide speakers addressing the following.

WV Spill

8:30 - 10: Maintaining Customer Confidence During a Crisis (American Water Company, WV & KY Reps, Louisville Water Company, Northern Kentucky)

10 - 10:30: Break

10:30 - 12 pm: A Look at What Went Wrong with an Eye Toward Future Prevention (EPA Region 3 or 4, WV Representative)

Thanks and have a great weekend!
